To Whom it May Concern:

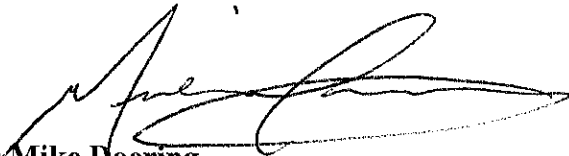

It is with great pleasure I write this letter of recommendation for Wasta Bin Jackers. As a general contractor for 47 years, we have used our share of grain bin erection companies and none of them compare to Wasta.

Evan the foreman/ owner is the hardest working and most honest young man you will meet. They show up on time, do what they say they are going to do, and keep a clean job site. If Evan says they are finished, everything is done. Period.

Every one of our customers is impressed with the professionalism and efficiency of the Wasta crew. They keep a small staff of respectable and hard working young men. If you want to find a bin erector that is a pleasure to work with, one that you can trust.....call Wasta.

Please feel free to call me to discuss Wasta Bin Jackers further.

Respectfully,

Mike Doering
